

An initiative for students 15-19 years old
Within ESP you will acquire and certify the skills and competences employers are looking for. The Entrepreneurial Skills Pass is YOUR PASS to further opportunities!

"The Junior Achievement experience is a concentrate of entrepreneurial candy: once you start, you can't stop. I got the opportunity to test myself in a risk-free environment. I learnt how much easier it is to sell when you have a great product, how talent will attract talent and how you only actually become a leader if you manage to inspire your team. Without any doubt, it was the most defining program I have had the chance to participate in. Whenever I meet a teenager who wonders what to do in his life, I tell him he should be part of a young enterprise. It might not provide all the answers but it opens your mind to lots of new options".

Sébastien Deletaille, now 30, Junior Achievement Alumnus from Belgium

Entrepreneurial Skills Pass

Are you an ambitious student between 15-19 years old?

Have you ever thought about starting your own company?

Do you want to have more opportunities to get a job and to be successfully employed?

Would you like to have your business skills and competences certified through a system recognized by organisations and companies across Europe?

Join the Entrepreneurial Skills Pass!

It includes:

A real entrepreneurial experience
A self-assessment tool
An internationally certified exam

Exam cost per student: € 35.00 (excl. VAT)

Entrepreneurial Skills Pass

1) Take part in a real entrepreneurial experience

Working with your classmates and under the guidance of teachers and business volunteers you will have the opportunity to set up and manage your own mini-company.

What can you learn by joining this programme?

You will **develop** your ability to generate ideas and turn them into action; **learn** how to work in a team, take initiative and accept responsibility; **experience** what it means to manage a real enterprise; **understand** how economics and finance contribute to the project's success; **apply** your math, science, language, writing, technological or specialized skills in a new and practical way.

2) Assess your entrepreneurial competences

During the programme, you will be able to reflect and assess your **entrepreneurial competences** as they progress through the year using an online system.

Teamwork Taking responsibility
Creativity Perseverance
Resourcefulness Taking initiative
Self-confidence

3) Get the Entrepreneurial Skills Pass

To certify all the knowledge and skills you gain through this experience, you can pass an exam, the Entrepreneurial Skills Pass.

This is endorsed by small and large businesses, top higher education institutions and international organisations across Europe. With ESP you will find multiple ways to pursue your business ideas, your career development or further learning opportunities!

ESP is YOUR PASS to further opportunities!
