

An international initiative!

ESP certifies that a young person has undertaken a real entrepreneurship experience and has acquired relevant knowledge, skills and competences to get a job or to start a business.

"The Junior Achievement experience is a concentrate of entrepreneurial candy: once you start, you can't stop. I got the opportunity to test myself in a risk-free environment. I learnt how much easier it is to sell when you have a great product, how talent will attract talent and how you only actually become a leader if you manage to inspire your team. Without any doubt, it was the most defining program I have had the chance to participate in. Whenever I meet a teenager who wonders what to do in his life, I tell him he should be part of a young enterprise. It might not provide all the answers but it opens your mind to lots of new options."

Sébastien Deletaille, now 30, Junior Achievement Alumnus from Belgium

Entrepreneurial Skills Pass

Are you encountering difficulties to find people with the right skills?

Do you think that young people leaving school lack the key skills to be successful employees?

Would you like to offer an opportunity to young people?

Endorse the Entrepreneurial Skills Pass !

Giving students a standardized form of recognition of their entrepreneurial skills and competences can provide them with a competitive advantage in entering the job market, thus increasing employment and providing companies with a clear picture of potential job candidates.

Exam cost per student: € 35.00 (excl. VAT)

Entrepreneurial Skills Pass

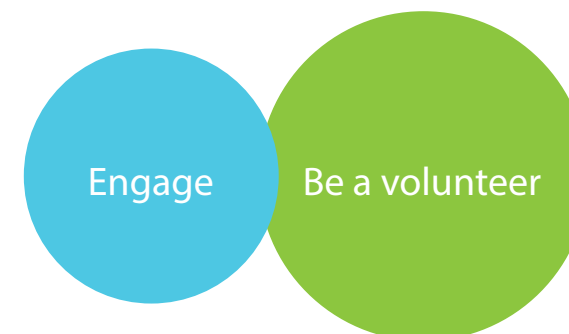

What is ESP?

ESP is a new qualification that certifies that students (15-19 years old) have completed a real entrepreneurship experience through a full-year in-school mini-company experience which has provided them with the necessary knowledge, skills and competences to start a business or to be successfully employed.

ESP is a high quality and complex learning path. You can change the life of these young people by offering them further opportunities!

How to get involved?

Engage your company through its human capital and expertise offering to coach or mentor mini-companies in any European country; sharing your special expertise through on-site or online presentations; joining the jury at a competition.

Support the Entrepreneurial Skills Pass with individual donations sponsoring the examination fee for any number of students.

Endorse and recognise achievement by offering successful ESP candidates further opportunities (internships, jobs, interviews, apprenticeships, further training, finance and/or mentoring for a start-up).

ESP is part of the **European Business Campaign on Skills for Jobs**, a initiative promoted by CSR Europe and JA-YE Europe that convenes companies across Europe to provide a strong answer to compelling business risks related to skills and employability such as an ageing workforce, a growing skills gap and stagnating socio-economic development.
